

## Attestation

### Renewal of SINTIFF Environmental Product Certificate – PS10003

1<sup>st</sup> May 2026

To whom it may concern,

CT1 is a unique TRIBRID® Polymer Sealant and Construction Adhesive used in every sector of the construction, marine, automotive and food preparation industries.

C-TEC is committed to product and sustainability and CT1, with multiple accreditations including EMICODE EC1 Plus, BEAAM-NOR, LEED and WELL Certification compliance, is the most ecologically advanced and environmentally compliant product on the market. With the lowest possible VOC content, making it the healthiest choice for home, landscaping, clinical and commercial projects, including in the foodstuff related sector. It is also in compliance with Directive EC 1907/2006, the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

CT1 is CE Marked and has been awarded the SINTIFF® Certificate since 2019. The product continues to conform with a national or international product standard or other technical specification, and the production process is subject to ongoing quality control as delivered by our ISO 9001:2015 Certified Quality Management System.

The renewal application for the current SINTIFF® Certificate has been submitted and is pending. Testing has been completed by:

SINTEF Byggeforsk,  
P. O. Box Blindern,  
NO-0314 Oslo,  
Norway  
Tele: +47 40 00 51 00  
Website: [www.sintefcertification.no](http://www.sintefcertification.no)

Due to back logs in the application awarding mechanism at SINTIFF® processing the renewal of new licenses has been elongated past our current Certificate expiry date – 1<sup>st</sup> May 2026. However, as CT1 has not chemically changed, the testing has been successfully completed and the data submitted, C-TEC is assured the product remains fully compliant and the new Certificate will be available once processed.

C-TEC NI Ltd will ensure all products continue to be compliant with all relevant regulations and will communicate any changes of compliance to customers.

Yours Sincerely,

John Kilroy  
Director of Operations  
C-Tec N.I. Limited
