Polypropylene twine 1/600m/kg stabilized UV

- ID: 220720
- Linear mass – 1/1670 tex
- UV – 1%
- colour white
- Breaking strength not less than – 67 daN
- elongation at break (no more than) – 10%
- Twist – 34Z
- nominal weight – 2kg
- Number of meters in a roll – 1200m +/- 3%
- Height of spool- 15 cm
- Diameter of spool- 19 cm

The twine is made in the technology of extrusion and thermoforming of polypropylene granules (PP) comply with the following provisions of the REACH:

Regulation (EC) No 1935/2004 of the European Parliament and of the Council of 27 October 2004. On materials and articles intended to come into contact with food and repealing Directive 80/590 / EEC and 89/109 / EEC (Official Journal of the EU No. L338 / 4 of 13.11.2004)

European Union Directive No. 94/62/EC on compliance with the Act of 11 May 2001. on packaging and packaging waste (Dz. U. of 2001. No. 63, pos. 638), including the harmonized standards PE-EN 13427-13432

The materials used for the production of the said Article are in the list of authorized substances contained in Commission Regulation (EC) No 174/2015 of 05 February 2015. On materials and plastic products intended for contact with food (EU Official Journal No. L30 of 06.02.2015)

Articles made from these materials, in particular, meet the limits:

- Level of global migration without exceeding the level of 10 mg / dm² (EU Regulation 10/2011/EC)
- Level the sum of the concentrations of lead, cadmium, mercury and hexavalent chromium not exceeding the level of 100 mg / kg

These strings may apply for contact with food:

- don't pose a threat to human health;
- don't cause an unacceptable change in the composition of the food;
- don't cause deterioration of organoleptic characteristics of food;
- actions don't cause irritating and sensitizing

valid till: 05.11.2026
